

WITH THE FARMERS

Farm Bureau Official Information

FORT ATKINSON C. T. A.

The Fort Atkinson Cow Testing association exhibit at the Jefferson county fair was a great success. Ten high producing cows, five Holsteins and five Guernseys, were exhibited with their records on neat placards over their heads.

Rehnen and Nuss registered Holstein, Perlece Adelle Guernsey, a two year old with her record as a two year old of 3,576 pounds milk, 2.53 per cent test, 359 pounds of butterfat for the year.

Next came John Perlece's famous Ella Fontaine Guernsey, famous as a three year old of 14,074 pounds milk, 2.55 per cent test, 458 pounds of butterfat. Third in line was Charles Samuels' Guernsey, Gem Caroma Hengerveld with her record as a five year old of 10,575 pounds milk, 4.23 per cent test, 422 pounds of fat for the year. Fourth was Earl Cooper's Lady Lake Side Holstein who was the high five year old the previous year and who has produced yearly production of 11,166 pounds milk, 3.62 pounds butterfat for the past four years. Fifth in line was Aaron Keuler's Lady Woodcrest Guernsey, a two year old with a record as a seven year old of 13,315 pounds milk, 3.71 per cent test, 424 pounds of fat for the year.

Then came the Guernseys, headed

by Honore Dalrymple's Guernsey Girl of Prospect with 10,145 pounds milk, 4.64 per cent test, 471 pounds of butterfat for her credit as a two year old. Second was Louis Erdman's grade Guernsey, "Beauty," with her record as a four year old of 11,152 pounds milk, 4.88 per cent test, 457 pounds of fat. Third was W. D. James' grade Guernsey, "Fawn," with 7,907 pounds milk, the remarkable test of 5.45 per cent, and 422.3 pounds of butterfat in one year. Fourth was the grand champion for five years, Burchard and Peters' "Ellie," a grade Guernsey whose total cash returns for butterfat during the past five years has been \$17,750.00, and whose average production per year for that period was 8,072 pounds of fat. Last in line, who was but by no means least, was Louis Erdman's "Dorinda," who, although she has not dropped a calf for five years or since September, 1918, has produced during that time 37,255 pounds milk, 4.8 per cent test, 1,785 pounds fat. Two single units of the Fort Atkinson milker and a one-half h. p. motor were loaned by the Fort Atkinson Manufacturing company to the C. T. A. for the exhibit and were used to good advantage on the milking members of the exhibition.

PLAN TO EXTEND BAND INSTRUCTION

Special Classes to be Formed for Fifth and Sixth Graders This Year.

Band instruction similar to that given to high school pupils will be offered fifth and sixth graders of all public schools this year, school officials have decided, and a meeting of parents interested in having their children take up this instruction will be held at the high school at 7:30 p. m. Thursday, when Ralph Jack, band leader, will explain the situation. It is hoped there will be a large attendance as consent of the parents now will save not only in securing their consent later.

Jack's Days Weekly.

The following letter has been issued to parents of fifth and sixth graders by Supt. P. O. Holt:

"It is the desire of the Janesville board of education to give opportunity to the children of the 5th and 6th grades to learn to play some band instrument. Ralph Jack, who last year conducted this same work in the schools, is this year employed to give three days each week to the Janesville public schools. The fact that we have Mr. Jack for this number of days means that he will be available to teach 5th and 6th grade children.

Want Large Classes.

"Most unusual results were secured with boys and girls last year who had never played any instrument before. It is surprising to find what results can be secured in teaching 5th and 6th grade children. We are anxious that a large number shall take advantage of the opportunity to learn to play some instrument in classes that will be in Mr. Jack's charge. These classes will be conducted during the school day, at the school building where your child attends. In order that your child may be able to take advantage of the opportunity to play an instrument, it will merely be necessary that you secure an instrument for him and that he give indication of the fact that he wishes to enter a class. It is not necessary to purchase a high priced instrument unless you desire. Any instru-

ment you may secure from any source will be satisfactory. No make of instrument is recommended. This is left entirely to the judgment and choice of the parents of the pupils who desire to be taught.

The results secured last year make it unnecessary to refer at length to the wisdom of extending this work to a large number of boys and girls. We hope you will be interested and decide that your son or daughter be given the advantage of entering such music classes as are suggested."

GIFT TO MARQUETTE.

Freeport—A gift of \$2,500 to Marquette university, Milwaukee, was made by the Rev. Peter Daly, died here today. Bequests also were made to other Catholic institutions. Twelve hundred and eighty acres of land in Burleigh county, North Dakota, form part of the estate.

Field for fuel. Phone 109.

BUTTER PRODUCTION HAS NOT DECLINED

Madison—Rumors that there has been a decline in butter production in Wisconsin are unfounded, the dairy department, Wisconsin-College of Agriculture, announced today.

During 1922, Wisconsin produced 1,255,000 pounds of butter. This figure marked the peak of butter production in the state and in the department's opinion there is not to be a slight decline from that figure this year. Reports although rather incomplete, indicate that the production is not showing any marked decline. Butter production varies somewhat with the rise and decline in the demand for other dairy products, the department said. Condensers at the present time are paying an exceptional price for milk. This is expected to divert some milk into this channel and detract somewhat from the butter production.

Reports from the principal butter centers of the country show that more butter was received on those markets last week than arrived there during the corresponding period last year.

WISCONSIN DAIRYMEN MUST HOLD THE LEAD

Madison—Wisconsin dairymen will have occasion to look to their laurels in convincing the world that theirs is the dairy center of the United States. "We have competitors in representing Wisconsin from a band of junior dairy enthusiasts. Five lucky Dodge youngsters are to take their calves to the National Dairy Show at Syracuse to compete with youngsters from all over the United States in a calf feeding, milking and fitting contest. Hildgarde Quenne and Janie Wright of Juneau county will make up the personnel of the demonstration team. It was at the Wisconsin state fair that these two little misses entered into competition with the boys teams and landed at the head of the line.

Calves representing several of the important dairy breeds will also be sent on to Syracuse to compete with calves from other states. Ragolia Larson, also of Juneau county, will lead her prize Holstein calf into the ring at Syracuse. Ragolia's calf was the winner in the Junior Holstein contest at the Wisconsin state fair. William Walvoord, of Sheboygan county, who is the proud owner of the champion Ayrshire calf in the state, will also be on hand at the event. Eugene Meyer of Buffalo county, whose Jersey calf triumphed at the state fair, hopes to repeat his victory at the National. A Guernsey calf will be entered in the competition at the National Dairy Exposition also, but as yet has not been selected. T. J. Bewick, of the Wisconsin College of Agriculture, who directs junior work in this state, is in charge of the state's junior representation at the Syracuse event.

HELD AS MURDERER OF CHICAGO MOTORIST

Thineander—A charge of first degree murder has been placed against George Marlow, 29, who was found by the coroner's jury to be the person who fired the shot killing Peter Morrison, Chicago, while driving his automobile near River Street Sunday night. Marlow pleaded, not guilty and was bound over to the full term of circuit court, without bail.

Circle No. 5 will hold a card party Friday evening at St. Patrick's hall, Bridge, 500 and 45 will be played. All are cordially invited.

VOICE OF THE PEOPLE

Editor Gazette:

In your issue of Tuesday, on page 4, you have an article written to which I would like to reply.

At first I want to state that I was not driving as though intoxicated. As Mr. Bays insinuates, Peter Bays was driving above speed limits or otherwise would not have been called into court. I can give proof I was on my side of the road except when passing the two cars I turned to my left to see if the road was passable. Peter Bays was behind me and kept asking for the right-of-way as though he owned the road. He was traveling at the rate of 30 miles an hour. I followed him and he speeded up to 40 miles an hour. When the city limits and did not slow down until he got to the bridge which crosses the C. & N. W. railway.

Again he traveled at the rate of 40 miles until he reached Center avenue hill when he speeded up to 40 miles. I then passed him and told him to stop. I ran him by in front of his car so as not to block traffic, but he again passed me. Then, again, I passed him and told him I wanted him to stop. He passed me the third time before stopping. I asked him if he wasn't breaking the speed law. He said he was, but as long as traffic wasn't so heavy he thought he could drive faster than the speed laws.

As far as my saying in court that Peter Bays' story is correct, he is mistaken. If his story had been correct he wouldn't have had to pay a fine. I want to say that right is right to one and all, and that the rich don't think any better of me than the poor. Peter Bays asked me the night he was arrested not to print it in the paper. But as long as he made this public he can have an answer.

G. A. KARRER, Deputy Sheriff.

Will C. Weirick Dies in Beloit

WILL C. Weirick, 57, prominent business man of Beloit, and a brother of C. H. Weirick, Janesville, died suddenly Tuesday of heart disease.

Mr. Weirick was born at Shopshire, moved to Beloit 38 years ago and engaged in the clothing business. He was in the Golden Eagle store of Beloit and bought out the interests of A. Leow, the proprietor. He conducted the Golden Eagle until 1918, when he sold it to J. P. Holman, bought out his interests and then became proprietor of the Weirick Garment store.

Mr. Weirick was a member of the Kiwanis club, Knights of Pythias and Elks.

Besides his wife, he leaves eight brothers and sisters, Mrs. J. H. Cooper, South Bend; T. H. and A. E. Weirick and Mrs. Elsie Brown, Shopshire; Albert E. Weirick, Venice, Cal.; Charles J. Weirick, T. E. Weirick and Mrs. John C. West, Jr., Beloit.

CORRECTION

In Recalling's Racing St. Store ad yesterday appeared "3 cans Monarch Baked Beans 25c." This should have read "3 cans for 25c."

Men's Neckwear

There is hardly a man but who is very particular about his necktie. This is due to the fact that despite its smallness, it is an outstanding figure and plays quite an important part in the makeup of a well dressed man.

Cheney Cravats in latest and very pretty patterns to go with any color of clothes, at \$1.00, 75c and 50c.

Knit Ties in over 100 patterns and you'll surely find what you want in a knit at \$1.00, 75c, 50c.

Men's Beaver and Velour Hats

We are showing an unusual variety of hats, some of which are very stylish and others somewhat conservative; these hats are made by Rothschild, better known as the "Longly" hats. We want to say, for the benefit of any purchaser of one of these hats, that they are but very few makes of hats which are so good as the Rothschild's even at a higher price. The Rothschild hat wearer will swear by it. They are priced at

\$4.50, \$5.00, \$6.00, \$7.00	Others at \$2.50 and \$3.00
--------------------------------	-----------------------------

Men's Winter O-Coats

We have one of the largest and most reliable overcoat factories which carries our stock of overcoats for us; this factory's stock is at our disposal. We will save you from \$10 to \$20 on your overcoat. We make a very small margin of profit; but you are not interested in how little we make as in how much you can save.

\$18.50, \$22.50, \$37.50, \$43.50.

Studebaker Surpasses 1922 Sales Record in First Eight Months

Total of 110,540 Cars Produced up to September 1 as Against 109,222 Cars for Full Year 1922.

Steady Demand Keeps Big Studebaker Plants Running at Capacity—Will Be Record Year.

With four months remaining in 1923, the Studebaker Corporation has already surpassed its entire production for 1922, according to a report just received from the Studebaker factory by Automotive Garage, 209 E. Milwaukee St., local Studebaker dealer. Production for the first eight months of 1923 was 110,540 cars as compared with 109,222 for the full calendar year of 1922.

August production was 15,700 cars, and broke all previous records. Production for the first eight months of 1923 was more than 32,000 in excess of the first eight months of last year.

Sales are expected to exceed 150,000 cars this year as against 110,269 last year. And they are well ahead of production which amounts to about 30,000 cars for the first two months of the present quarter as compared with 30,199 for the full third quarter last year.

All plants are running at capacity to meet the continuous, large demand for Studebaker cars from all sections of the country, and indications point to a heavy fall business. The sales of the last four months of this year will therefore represent this year's increase over the 1922 record.

Buildings are now under construction at South Bend, Indiana, which will increase Studebaker manufacturing facilities still further in order to meet more adequately the insistent demand for Studebaker cars. Work on these additions, requiring an investment of approximately \$6,000,000, is progressing rapidly.

The new six-story body building, now nearing completion, contains 480,000 square feet of floor space. It is expected that this building will be ready for use before snow flies.

Shipping will be facilitated by a new, four-story storage building and a train shed which are being added to the present facilities. Dimensions of each, of these additions are 76x364 feet, and both are now practically under roof and will be soon ready for use.

The mammoth new foundry, alone costing approximately \$2,500,000, will measure 722x683 feet, and is now well under way. When finished this will be the largest grey iron foundry in the automotive industry.

Studebaker's plant facilities today are unexcelled in the industry, and its financial standing and splendid reputation are the subject of favorable discussion in business circles and among motorists throughout the country.

Robert Earle, 108 Jefferson avenue, is spending a few days in Chicago with relatives.

PROCEEDINGS.CLIMAX NEARING
Military Head Is Called by
District Court; May Not
Obey.

(TULSA, Okla.)—Norris Evans and Jake Hyde, indicted on military information charging participation in the masked band attack on the L. Cook home May 26, were held in bonds of \$1,500 each when arraigned Wednesday. Trial was set for Oct. 2. Of the 14 indicted floppers thus far arraigned on military information, nine have been held for criminal trial and five released.

(BY ASSOCIATED PRESS)
Oklahoma City, Okla.—Martial rule over Oklahoma appears to be rapidly to be approaching a climax today.

Attention momentarily is focused on Tulsa, where Governor Walton's authority to suspend the right of recourse to habeas corpus will be tested. There Adjutant General E. H. Markham, commanding the military forces, has been ordered in district court to show cause why three men held as witnesses by the military should not be released. Whether the adjutant general would obey the summons, however, remained in doubt, due to the question of whether the civil authorities are subservient to the military under the decree of martial law.

Impeachment Planned.
Meanwhile, state legislators are gathering here to perfect plans for an extraordinary session of the assembly in defiance of Governor Walton. No secret is made of the fact that if the legislature convenes impeachment proceedings will be instituted against the governor should sufficient basis for charges be found. Despite the executive's threat to imprison all lawmakers who attempt to hold a special session of the legislature, "because it would interfere with the prosecution of his fight against the Ku Klux Klan," assemblymen leading the movement declare they are within their rights and that the session will be called as soon as the signature of a majority of members of both houses can be obtained.

Will Probe Conditions.
Announced plans are for the legislature to meet as an "informal" body to "investigate conditions in the state." No effort is being made to convene for legislative purposes, for which a call from the governor is necessary. It was said.

PRESS STRIKE
PEACE SOUGHT

(BY ASSOCIATED PRESS)
New York.—Hope for speedy settlement of the strike of pressmen, which has prevented the publication of the city's leading newspapers since midnight Monday, was entertained when the strikers discussed a proposal that they return to work under a 10 days' truce. Tuesday, all papers united in publishing a single edition at 4 p. m. bearing the names of all.

WORKER STUNNED
BY HIGH CURRENT

Whitewater.—While working on the new electric circuit that is being run into Whitewater, a Duggins, Wis., man, was stunned and his right hand burned when he took hold of a damp rope which was touching one of the wires carrying high voltage. The accident occurred near the home of A. Everson, Walworth avenue.

A Fair Trial

sold a pony for one man and bought a pet for a delighted child.

Mr. Blank inserted the following ad in the classified page for two days.

FOR SALE.—Pony, buggy, cutter, corn cutter, ton of hay. David Clark, 503 Milton Ave.

He had no calls on the pony and, very much disappointed, decided that there was no market for his pony. However, the ad girl knew the owner was and she suggested changing the ad thus:

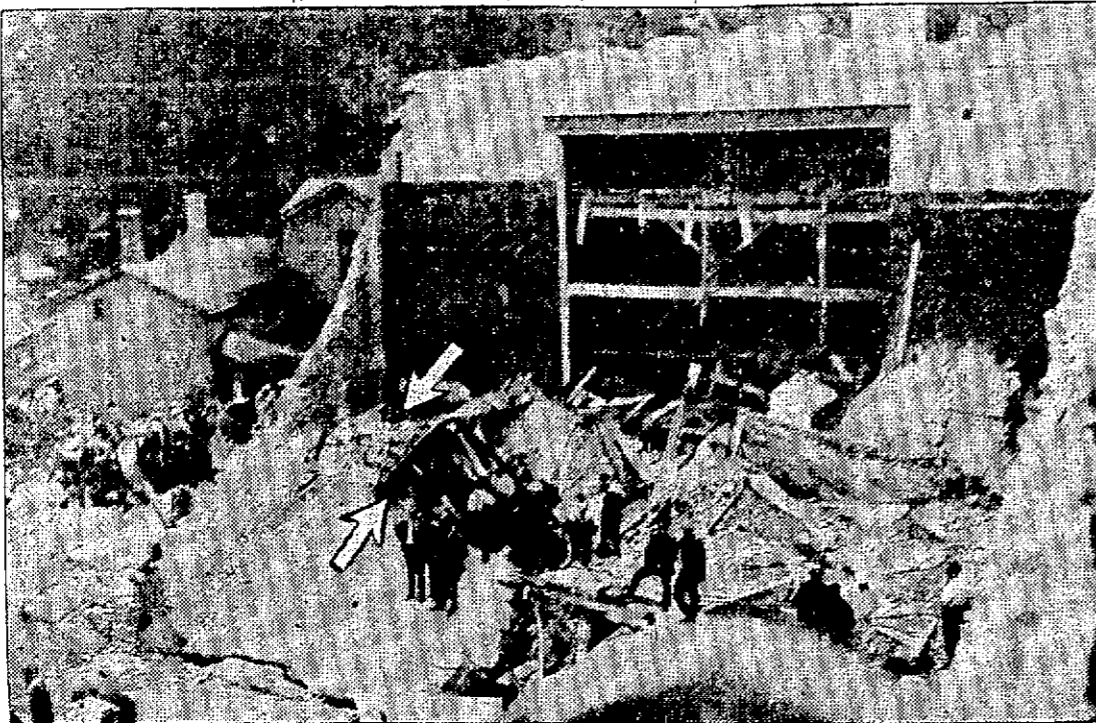

GENTLE PONY.—Suitable for children, \$20; also buggy, \$25. Ton of hay. Phone 2416-R.

Mr. Blank finally decided to try once more. After the second insertion, he called the ad girl and told her that the pony had been sold.

The old ad "It at first you don't succeed, try, try, try, is true with every ad," Mr. Blank is delighted and endorses want ad service enthusiastically.

PHONE 2500
and ask for Mary Brown. She will send the ad that brings results.

SCENE OF THE TRAGIC COLLAPSE OF SAXE THEATRE BUILDING TUESDAY

Hard Coal Mines
Again in Action

(BY ASSOCIATED PRESS)
Scranton, Pa.—After an idleness of more than two weeks due to the suspension order of their union leaders, the 155,000 mine workers in the anthracite region resumed work today.

The new wage scale, covering a period of two years from Sept. 1 and embodying the terms of the Harrisburg agreement, based on the settlement submitted by Governor Pinchot, formally was ratified by the tri-district convention of the United Mine Workers on Monday and the suspension order officially lifted.

The new scale includes a 10 percent increase in wages, an eight hour day, recognition of the union, and the principles of collective bargaining.

Union leaders said a large output this winter was assured, although it is not expected normal production would be restored for several days. Operating officials said the mines generally were in excellent condition. Tools of the workers and the mine mules were lowered into the underground workings yesterday and thousands of men were ready when the whistles blew this morning.

Cosgrave
Reelected

(BY ASSOCIATED PRESS)
Dublin.—William T. Cosgrave was re-elected by the Dail Eireann today as president of the executive council of the Irish free state.

During the daily session Deputy Gorey, leader of the farmers, who are assuming the attitude of the official opposition party, advocated the release of Eamon De Valera and other republican deputies now in prison, so the republican party might have an opportunity to meet and discuss its policy.

President Cosgrave, in a vehement reply, refused to yield to what he characterized as sentimentalism and permit the entrance into the dail of men who, he said, had done their worst by violence and had failed. There must be some evidence of a change of heart, he added.

BUSINESS MAN SUICIDE.

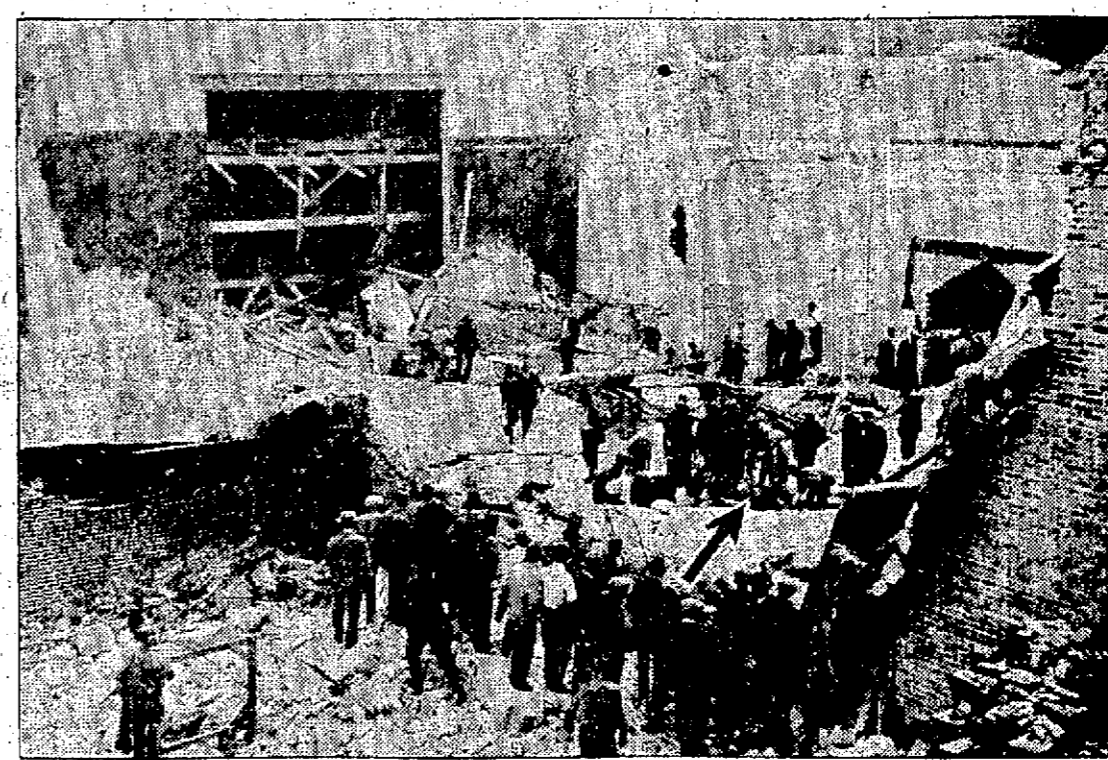

Madison.—Joseph Potter, 70, prominent business man of the city, committed suicide here by hanging. His body was found in the garage at the rear of the home.

Bandits Rob
ILLINOIS BANK

Galesburg, Ill.—Five bandits blew the safe of the Farmers' bank at Joy, at 2 a. m. Wednesday and escaped with about \$4,000 in cash. Five charges of dynamite were used.

View facing south toward Dodge street, showing firemen and blow-for-blow workers endeavoring to extricate Charles Evans, Moline plasterer, from the ruins of the collapsed theater. He was trapped nearly two hours. Arrow points to spot where Evans' rescuers were working. In the left foreground are city officials: No. 1, City Manager Henry Trankler; No. 2, J. K. Jensen, president of the city council; No. 3, Commissioner C. Starr Atwood.

This picture, showing the stage in the rear, gives an idea of the immense size of the theater and how the ruins looked immediately after the disaster. Arrow shows where workers are endeavoring to recover the body of Claude Cochrane. Exit at extreme right is where many of the workers escaped when they heard the collapse coming.

MOROCCO BANDIT
GIVES ALLEGIANCE
TO PRIMO RIVERA

Madrid.—Captain-General Primo Rivera, replying to a letter from Ral-vein, which the famous Moroccan bandit offered his adherence to the regime, thanked the chief for his allegiance, "the value of which the king appreciates."

Government officials here refused to give information to the newspapers regarding the Spanish situation.

A large number of government functionaries have given up their positions, fearful of being ousted by General Rivera.

Earth Shock
in Bermuda

Hamilton, Bermuda.—An earthquake shock sufficient to cause the houses to tremble was felt here at 6 p. m. Tuesday. No damage was reported.

2 WARSHIPS
IN COLLISION

(BY ASSOCIATED PRESS)
Washington.—Collision between the battleship "Arkansas" and the destroyer "McFarland," off Newport early Wednesday, was reported in a dispatch received by the navy department. The destroyer, struck on the port side forward of her bridge, was said to have been seriously damaged and to be proceeding "under escort" to Boston. The two ships were engaged in night maneuvers.

CRUDE OIL
PRICE CUT

(BY ASSOCIATED PRESS)
Tulsa, Okla.—A drastic cut in the price of Mid-Continent crude oil prices and a radical change in the classification of the grades heretofore used was announced today by the Prairie Oil and Gas company, which posted a new schedule reducing former prices from 15 to 70 cents a barrel and cutting the number of grades from eight to three.

CLAUDE COCHRANE
Only victim of the collapse of the theater.

SUPERIOR MAN IS
SUCCESSOR TO NYE

Madison, Wis.—William Bradley, Superior, was named a member of the Wisconsin grain and warehouse commission today by Governor Blaine to succeed former Senator Ray T. Nye. His term is until February, 1926, and the salary, \$200 a month.

This ends a long controversy over selection of a successor to Senator Nye. State Senator M. A. Komp, Superior, and Assemblyman Sixtus Lindahl, Superior, were both held likely successors.

It is reported the governor appointed Bradley to avoid the controversy that might have followed selection of one allied with the wet or dry faction.

George M. Sheldon, Tomahawk, was selected as a member of the Wisconsin real estate brokers' board to succeed himself for three years, ending Aug. 1, 1926.

BRITISH OPPOSED
TO AGREEMENT ON
LIQUOR SMUGGLING

(BY ASSOCIATED PRESS)
Washington.—The British reply to Secretary Hughes' proposal for a reciprocal agreement on ship liquor and liquor smuggling was received at the state department today and was described by officials as "in general not sympathetic to the proposal."

The British government plans, however, to present the question to the British imperial conference, which meets in London next month.

12 Mile Limit Urged

In his proposal, made to several powers, Secretary Hughes pointed out that the draft treaty he submitted was designed to make a special arrangement extending the right of search and seizure up to 12 miles off shore to prevent wholesale smuggling of liquor into the United States. It was emphasized that no project was being put forward by the United States for any change in the general rule of international practice, that fixes the limit of territorial waters at three miles.

Twenty Is Suggested

Secretary Hughes also pointed out that, under existing law, the government was powerless to permit stores of liquor on foreign ships, to enter American waters, even when it was clear that the liquor was not to be used or delivered within American jurisdiction. By an exercise of the treaty making power, Mr. Hughes proposed to overcome this obstacle in a way that would have the effect of an amendment to the law.

The state department does not plan to make public the British communication or the specific grounds on which British objections were based. In any event, the department regards the matter as still indefinite.

FALLS INTO
SILO; KILLED

Monroe.—Rudolph Strecek, 32, was killed on his farm in Cadiz township when he fell from the top to the bottom of a 46 foot silo. Strecek weighed 217 pounds and it was necessary to demolish part of the silo wall to remove him. He died two hours after the accident. He leaves his wife, three children and three sisters: Mrs. Amella Ott, Broadhead; Mrs. Elizabeth Brindorf; and Mrs. Marie Butts, Albany.

STATE MEN HERE
FOR QUIZ INTO
THEATER COLLAPSE

CORONER WHALEY SUMMONS JURY AND PLANS TO HOLD INQUEST.

STATE INSPECTED

Plans Approved by Industrial Commission—Theater Will Be Rebuilt.

Janesville awoke Wednesday morning still under the spell of the tragedy of Tuesday afternoon. In each mind was the same thought and the same vision of a theater auditorium filled with hundreds of people, with a roof and sides of the building falling, and within, the dead and dying, mangled and injured. There was a sadness

Not Seriously Injured

Injuries to Schilling, Burdick and Hill, injured in the Saxe theater crash, were found to be less than at first supposed. After the men had been examined by Dr. Wayne A. Munn at the hospital, X-rays showed the following injuries:

A. M. Schilling, Moline, Ill., both bones of the forearm broken.

Frank Burdick, Janesville, cuts on ear and contusion of some muscles.

William Hill, 350 Western avenue, bruised arm.

Charles Feltz, Moline, Ill., who was pinned by large beams and who ordered workers to get the other men out before they worked alone, was injured only slightly, having a cut on the face and some leg bruises. With the aid of a cane, he left the hospital Wednesday morning and returned to the scene of the catastrophe.

over the death of Claude Cochrane and that he, with no responsibility in the matter, had paid the penalty for someone's blunder, with his life. Complete, rigid investigation was promised by Coroner Lynn Whaley.

Starting of investigations by state and county authorities of the cause of the collapse and destruction of the Saxe Bros. theater here Tuesday and announcement that the structure will be rebuilt immediately, were the most important developments in the 24 hours following the disaster which snuffed out the life of Claude E. Cochrane, 37, Janesville

plumbing contractor, and emancipated both of his sons, one of whom had miraculous escapes.

County Coroner Lynn M. Whaley, Janesville, swore in a coroner's jury and announced there would be an inquest into the cause of the collapse. Officials of the state industrial commission were here Tuesday night and Wednesday morning, looking at the wreckage and vowing to city officials that the fullest possible inquiry into the cause of the collapse will be made. It was under the industrial commission's inspection that the theater was being erected.

Willis Investigation.

Contractor T. S. Willis and Thomas Sax, president of Saxe Bros., both of whom were in the building, were demanded an examination and quiz which will fix responsibility for the destruction of the building.

Although possible causes of the collapse are being pointed out, (Continued on Page 5)

Story of eye witnesses and rescued in collapse of Saxe theater, on page 1.

Baby Mary Will
Miss Claude on
Her Sixth Birthday

Baby Mary is mourning the loss of a foster father, but is too young yet to realize the fact that the man who was a father to her for the last two years—Claude Cochrane—can take care of her no longer.

Baby Mary is the little girl adopted at Mercy hospital when her mother died. She has been brought up there and has been beloved by all the sisters and nurses. For the last two years, Mr. and Mrs. Cochrane have taken care of her almost constantly.

Today is Baby Mary's sixth birthday, and she and "Claude" had planned a big day, with many presents and lots of fun. Baby Mary knows something has happened, but doesn't realize just what.

When the ambulance drew up to the hospital Tuesday with the injured men from the crash, Baby Mary thought each one would be "Claude" for she knew something had happened to him.

"When are you going to bring Claude up here?" she asked each time. "Hurry and bring him. We can fix him here. We know how to fix Claude."

THE WEATHER
Showers probable tonight and Thursday; not much change in temperature.

WITH THE FARMERS

Farm Bureau Official Information

FORT ATKINSON C. T. A.

The Fort Atkinson Cow Testing association exhibit at the Jefferson county fair was a great success. Ten high producing cows, five Holsteins and five Guernseys were on exhibition with their records on neat placards over their heads.

Behnken and Nuss's registered Holstein, Perleco Aalto Hickey stood at the head of the line with her record as a two year old of 3,207 pounds milk, 2.5 per cent test, 359 pounds of butterfat for the year.

Next came John Foster's famous 2514 Pontiac Lass with her record as a three year old of 14,051 pounds milk, 3.55 per cent test, 488 pounds of butterfat. Third in line was Charles Shuman's Queen Gem Guernsey, a three year old, with a record of 10,576 pounds milk, 4.08 per cent test, 452 pounds of fat for the year.

Fourth was Earl Cooper's Lady Lake Side Fleeter, who has not dropped a calf for five years or since September, 1918, has produced during that time 37,250 pounds milk, 4.8 per cent test, 2,728 pounds fat.

Two single units of the Fort Atkinson milker and a one-half h. p. motor were loaned by the Fort Atkinson Manufacturing company to the C. T. A. for the exhibit and were used to good advantage on the milking members of the exhibition.

BUTTER PRODUCTION HAS NOT DECEASED

Madison.—Rumors that there has been a big decline in butter production in Wisconsin are unfounded, the dairy department of Wisconsin College of Agriculture announced today.

During 1922 Wisconsin produced 142,235,000 pounds of butter. This figure marked the peak of butter production in the state and in the department's opinion there is apt to be a slight decline from that figure this year. Reports although rather incomplete, indicate that the production is not showing any marked decline.

Butter production varies somewhat with the rise and decline in the demand for other dairy products. The present time is paying an exceptionally good price for milk. This is expected to divert some milk into this channel and detract somewhat from the butter production.

Reports from the principal butter centers of the country show that more butter was received on those markets last week than arrived there during the corresponding period last year.

WISCONSIN DAIRYMEN MUST HOLD THE LEAD

Madison.—Wisconsin dairymen will have occasion to look to their laurels in convincing the world that they are the dairy center of the United States.

They are to have competition in representing Wisconsin from a band of junior dairy enthusiasts.

Five lucky Junior youngsters are to take their calves to the National Dairy Show at Syracuse to compete with youngsters from all over the United States in a calf feeding, selecting and fitting contest. Hildegard Quamme and Janie Wright of Juneau county will make up the personnel of the demonstration.

The Wisconsin state fair that these two little misses entered into competition with the boys teams and landed at the head of the line.

Calves representing several of the important dairy breeds will also be sent on to Syracuse to compete with calves from other states.

Agnes Larson, also of Juneau county, will lead her prize Holstein calf into the ring at Syracuse. Agnes's calf was the winner in the Junior Holstein contest at the Wisconsin State Fair.

William Walvoord, of Sheboygan county, who is the proud owner of the champion Ayrshire calf in the state, will also be on hand at Syracuse.

Eugene Meyer, of Buffalo county, whose Jersey calf triumphed at the state fair, hopes to repeat his victory at the National Dairy Exposition, also, but as yet has not been selected.

T. L. Bewick, of the Wisconsin College of Agriculture, who directs junior work in this state, is in charge of the state's junior representation at the Syracuse event.

HELD AS MURDERER OF CHICAGO MOTORIST

Chicago.—A charge of first degree murder has been placed against George Marlow, 30, who was found by the coroner's jury to be the person who fired the shot killing Enoch Morrison, Chicago, while driving a motor vehicle near Eagle River Sunday night. Marlow pleaded not guilty and was bound over to the full term of circuit court, without bail.

Circle No. 5 will hold a card party Friday evening at St. Patrick's hall, Bridge, 500 and 45 will be played. All are cordially invited.

VOICE OF THE PEOPLE

Editor Gazette:

In your issue of Tuesday, on page 4, you have an article written to which I would like to reply.

At first I want to state that I was not driving as though intoxicated, as Mr. Bays insinuates. Peter Bays was driving above speed limits or otherwise would not have been called into court. I can give proof I was on my side of the road except when passing the two cars I turned to my left to see if the road was passable.

Peter Bays was behind me, and kept asking for the right-of-way as though he owned the road. He was travelling at the rate of 30 miles an hour. I followed him and he speeded up to 40 miles and more, to the city limits and did not slow down until he got to the bridge which crosses the C. & N. W. railway.

Again he traveled at the rate of 50 miles until he reached Center avenue hill when he speeded up to 40 miles. I then passed him and told him to stop. I ran to stop in ahead of his car so as not to block traffic, but he again passed me. Then, again, I passed him and told him I wanted him to stop. He passed me the third time before stopping. I asked him if he wasn't breaking the speed law. He said he was, but as for my traffic wasn't so heavy he thought he could drive faster than the speed laws.

As far as my saying in court that Peter Bays' story is correct, he is mistaken. If his story had been correct he wouldn't have had to pay a fine. I want to say that right is right to one and all, and that the rich don't fool any better, to me than the poor. Peter Bays asked me the night he was arrested not to print it in the paper. But as long as he made this public he can have an answer.

A. A. KARBURG,
Deputy Sheriff.

PLAN TO EXTEND BAND INSTRUCTION

Special Classes to be Formed for Fifth and Sixth Graders This Year.

Band instruction similar to that given to high school pupils will be offered fifth and sixth graders of all public schools this year, school officials have decided, and a meeting of parents interested in having their children take up this instruction will be held at the high school at 7:30 p. m. Thursday when Ralph Jack, band leader, will explain the situation. It is hoped there will be a large attendance as consent of the parents now will save red tape in securing their consent later.

Jack's Days Weekly.

The following letter has been issued to parents of fifth and sixth graders by Supt. F. O. Holt:

"It is the desire of the Janesville board of education to give opportunity to the children of the fifth and sixth grades to learn to play some band instrument. Ralph Jack, who last year conducted this same work in the schools, is this year employed to give three days each week to the Janesville public schools. The fact that we have Mr. Jack for this number of days means that he will be available to teach fifth and sixth grade children.

Want Large Classes.

"Most unusual results were secured with boys and girls last year who had never played any instrument before. It is surprising to find what results can be secured in teaching fifth and sixth grade children. We are anxious that a large number shall take advantage of the opportunity to learn to play some instrument in classes that will be in Mr. Jack's charge. These classes will be conducted during the school day, at the school building where your child attends. In order that your child may be able to take advantage of the opportunity to play an instrument, it will merely be necessary that you secure an instrument for him, and that he give indication of the fact that he wishes to enter a class. It is not necessary to purchase a high priced instrument unless you desire. Any instrument you may secure from any source will be satisfactory. No make of instrument is recommended. This is left entirely to the judgment and choice of the parents of the pupils who desire to be taught.

The results secured last year make it unnecessary to refer at length to the wisdom of extending this work to a large number of boys and girls. We hope you will be interested and decide that your son or daughter has given the advantage of entering such music classes as are suggested."

GIFT TO MARQUETTE.

Freeport—A gift of \$2,500 to Marquette university, Milwaukee, was provided for in the will of the Rev. Peter Daly, filed here today. Bequests also were made to other Catholic institutions. Twelve hundred and eighty acres of land in Burleigh county, North Dakota, form part of the estate.

Field for fuel. Phone 109.

Troy Laundry Still Open for Business

The collapse of the Saxe Theater badly damaged a portion of our plant and, was a serious blow to us—however, we have made arrangements whereby we can handle laundry work of any kind and do the same high grade work as usual.

Phone 447 and our truck will call. Your laundry will be delivered back to you fresh and clean with the same promptness as always.

TROY STEAM LAUNDRY

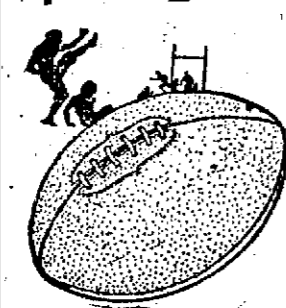

14 S. Jackson St. Phone 447.

Safady's Autumn Showing Of Fall and Winter Merchandise

Men, have you any use for a pair of extra heavy cotton gauntlet gloves? If so, all you need to do is to make a purchase of \$1.00 or more and you will receive a pair Safady's Special Gauntlet Gloves. Remember, these gloves retail at from 35c to 50c.

One thing we should like to have you bear in mind and that is we sell quality merchandise reasonably priced, and will stand behind every article we sell. At any rate, get a pair of gloves. WE SELL FOR CASH.

Spalding Basket and Football Supplies

We are now showing a complete line of basket and foot ball supplies. We have them for the little fellows as well as for the bigger ones. Get in the game fellows, keep in shape, don't be a weakling.

Spalding rule books and guides, including how to box, how to punch the bag, to wrestle, fencing, bowling, tumbling, live 100 yards, indoor base ball, athletic almanac, etc.

Sport Knit Coats and Slip-over Sweaters

We are especially featuring the Spalding Slip-Over and V-neck Sweaters, and Spalding extra heavy Jersey knit sport coat because there is nothing in a way of a sweater that is better.

Spalding's heavy slip-over V-neck	\$12.00
Spalding's heavy slip-over with collar	\$12.00
Spalding's heavy Jersey Sport Coat	\$7.50
Others at	\$2.65, \$4.75, \$5.00, \$6.00, \$10.00

We have a few close outs in boys sizes.

Men's Suits

Suits for men takes up much of our time and interest. We take much pride in fitting out men with their suits and see to it that every suit is a PERFECT FIT.

We specialize in a made-to-your-measure suit business, but we always carry few suits on hand reasonably priced.

Come in and look us over.

Men's Dress and Work Shoes

Our shoes are so priced that no matter what you pay for them you will always receive good value. Never have we had it said that the shoes we sold did not give the necessary amount of service. Ask the other fellow if this isn't so.

Dress Shoes	\$3.95, \$4.50, \$5.00
Work Shoes	\$1.90, \$3.95

MEN'S CAPS

There are no better caps and none so good when you consider that they sell for only

\$2.00

Others, \$1.00; \$1.50.
Kromer's Engine Caps.

SAFADY BROS.

411 W. Milwaukee Street

Men's Neckwear

There is hardly a man but who is very particular about his necktie. This is due to the fact that despite its smallness, it is an outstanding figure and plays quite an important part in the makeup of a well dressed man.

Cheney Cravats in latest and very pretty patterns to go with any color of clothes, at \$1.00, 75c and 50c.

Knit Ties in over 100 patterns and you'll surely find what you want in a knit at \$1.00, 75c, 50c.

Men's Beaver and Velour Hats

We are showing an unusual variety of hats, some of which are very stylish and others somewhat conservative; these hats are made by Rothschild, better known as the "Longly" hats. We want to say, for the benefit of any purchaser of one of these hats, that they are but very few makes of hats which are so good as the Rothschild's even at a higher price. The Rothschild hat wearer will swear by it. They are priced at

\$4.50, \$5.00, \$6.00, \$7.00 Others at \$2.50 and \$3.00

Men's Winter O-Coats

We have one of the largest and most reliable overcoat factories which carries our stock of overcoats for us; this factory's stock is at our disposal. We will save you from \$10 to \$20 on your overcoat. We make a very small margin of profit; but you are not interested in how little we make as in how much you can save.

\$18.50, \$22.50, \$37.50, \$43.50.

Studebaker Surpasses 1922 Sales Record in First Eight Months

Total of 110,540 Cars Produced up to September 1 as Against 109,222 Cars for Full Year 1922.

Steady Demand Keeps Big Studebaker Plants Running at Capacity—Will Be Record Year.

With four months remaining in 1923, the Studebaker Corporation has already surpassed its entire production for 1922, according to a report just received from the Studebaker factory by Automotive Garage, 209 E. Milwaukee St., local Studebaker dealer. Production for the first eight months of 1923 was 110,540 cars as compared with 109,222 for the full calendar year of 1922.

August production was 15,700 cars, and broke all previous records. Production for the first eight months of 1923 was more than 32,000 in excess of the first eight months of last year.

Sales are expected to exceed 150,000 cars this year as against 110,269 last year. And they are well ahead of production which amounts to about 30,000 cars for the first two months of the present quarter as compared with 30,199 for the full third quarter last year.

All plants are running at capacity to meet the continuous, large demand for Studebaker cars from all sections of the country, and indications point to a heavy fall business. The sales of the last four months of this year will therefore represent this year's increase over the 1922 record.

Buildings are now under construction at South Bend, Indiana, which will increase Studebaker manufacturing facilities still further in order to meet more adequately the insistent demand for Studebaker cars. Work on these additions, requiring an investment of approximately \$8,000,000, is progressing rapidly.

The new six-story body building, now nearing completion, contains 480,000 square feet of floor space. It is expected that this building will be ready for use before snow flies.

Shipping will be facilitated by a new, four-story storage building and a train shed which are being added to the present facilities. Dimensions of each of these additions are 76x364 feet, and both are now practically under roof and will be soon ready for use.

The mammoth new foundry, alone costing approximately \$2,500,000, will measure 722x683 feet, and is now well under way. When finished this will be the largest grey iron foundry in the automotive industry.

Studebaker's plant facilities today are unequaled in the industry, and its financial standing and splendid reputation are the subject of favorable discussion in business circles and among motorists throughout the country.
